BELFORD'S MAGAZINE.

DONN PIATT, Editor.

THOUGH BELFORD'S MAGAZINE IS THE latest comer in the field of periodical literature, the best proof of its prosperity is the fact that its paid up subscription list has reached a figure eminently satisfactory to the publishers.

Belford's Magazine is distinctly American and commends itself to all intelligent and thoughtful persons who wish to keep themselves posted on the great questions of the day. Under the able and brilliant management of Col. Donn Piatt it will each month in its editorial department speak out fearlessly and fairly, and with thorough independence, on all questions of public importance.

Its long novel, given in each number complete, by some of our popular authors, such as Julian Hawthorne, Edgar Saltus, Edgar Fawcett, Mrs. Elizabeth Bellamy and a score of other well-known names, is a characteristic of Belford's Magazine. Prof. Sumner, David A. Wells, Henry George, Henry Watterson, John G. Carlisle, Frank Hurd, are some of the contributors to Belford's Magazine on political and economic subjects. Short stories, two or more of which are contributed to each number, dramatic notes, passing events and book reviews, combine to make Belford's one of the most readable and interesting periodicals now before the public. Send for a three months' trial subscription, 75 cents, \$2 to a year, 25 cents a number. Enclose six cents for sample copy.

I suffered with catarrh for many years and got so deaf that I went about my Museums, Circus and Theatre giving directions and doing business with a big ear-trumpet at the side of my head. It was very annoying to me and amusing to those who saw me. By the advice of physicians I sought the climate of the Sunny South. In six months I could see no change and was discouraged. At this time I began using Chalmer's English Catarrh Cure. In three months I felt a new man, in six months my hearing returned. I refused to give a testimonial at once for the English Catarrh Cure, as I feared it was not permanent. But a year and more has now passed, and I can now heartily indorse Chalmer's English Catarrh Cure for the cure of catarrh and deafness.

Another Taxpayer On the Lottery Amendment.

Editor Enterprise: With the general knowledge of the condition of the State it occurs to me that opposition on the part of our citizens to Amendment 22 (the Lottery Amendment) is, to say the least, strange. During the years that Nevada has been known as a rich mining country, the whole world has lived upon us. More immediately the United States, but finally the entire world has drawn upon our wealth, and we have been left poor. While we were the bountiful producers no complaint was heard; we did not complain and our neighbors and their neighbors took our money in satisfied silence. Now it is proposed to change the current, and directly a clamor is heard, and strangely enough the clamor is not alone from the mouths of strangers, but citizens of the State that is to be assisted, and who will share in the prosperous times that accompany an ample supply of money, are raising their voices against a manifestly wise financial policy. Heretofore squeezed like a lemon to enrich strangers, Nevada now proposes to bring back some of the money which she once distributed with a lavish hand. The weakness of the world for indulgence in games of chance of all descriptions will remain whether a lottery is established here or elsewhere, and moralists may preach, but lotteries will be established and patronized.

It is proposed that a lottery be established in Nevada, the drawings of which shall be in charge of the State officers. This of itself is a sufficient revelation of the charges made by both honest and venal opponents of the measure that there will be any unfairness, without calling attention to the recognized fact that the nature of the operations of a lottery is such that the least suspicious destroys all possibility of profit. Charity compels the acknowledgment that very many of those who are scattering semi-religious circulars are unaware that they are peddling an untruth, but the obtrusive can scarcely be blamed to reach those who knowingly print a falsehood in the name of morality and in the interest of a foreign corporation. I am strangely reminded of the inconsistency of the pleas of unfairness and detriment to the State by the singular combination of misstatements and venal teaching in the circulars that I have seen. One of them, as illustrative of the dangers with which our State is threatened, says that the State debt of Louisiana has been sadly increased by the presence of the lottery. This invention as a reinforcement of a moral lesson is a remarkable example of fighting the devil with fire. The facts are that when the Louisiana lottery was started, the State, owing to the disturbed condition of politics during the years immediately succeeding the war, was apparently hopelessly bankrupt, but in the twenty years of the existence of the lottery the enormous debt of the State has been reduced many millions. Now, Mr. Editor, if morality is the issue involved, a careful consideration of both sides will probably suggest the thought that most of the morality lies with the side of the advocates of the amendment, who frankly rely for support on a fair presentation of the material interests of the State. It certainly will not find a comfortable resting place in the camp of those who seek to establish a principle by a recital of untruths.

Morality however, is not really in interest on either side of the question. I do not know how much exaggeration has been given to the sum of money sent here by Louisiana, but that there is money here for the purpose of preventing competition is well known, and there is certainly no strong moral ground work for a structure of interference from another State.

If on the other hand, we look at the interests of the State, how does the question shape itself? In one direction we see a struggle for existence, in the other a continuous stream of money decreasing our taxes and increasing the opportunities for individual earnings. Nearly every man in the State will be more or less interested in the earnings of any company that may be formed, and every person in the State will be favorably affected by the expenditure of money in various enterprises that will begin or renew activity as a consequence of the contributions from the world at large, that has for so long drawn upon us without either gratitude or acknowledgment.

ANOTHER TAXPAYER.

Virginia, Feb. 8.

The Chicago Tribune is always poking fun at Nevada. It says: "The Legislature of Nevada, a State of 50,000 inhabitants, is trying to cut down expenses. With diminishing population and decreasing resources it finds it hard to make both ends meet and to keep up the pomp and style of a so-called 'sovereign State.' So it is now considering a bill to cut down the pay of State officers and employees. The people of the rotten borough State would do better to take a short cut out of their difficulties by asking Congress to annex Nevada to California, or to annex Idaho or Utah, or both to Nevada. One thing is certain—that it is ridiculous to go on keeping up the style and pretensions of a sovereign State with only one-third of the population needed for one Representative in the House of Representatives."

The Tribune is unduly excited. If it really wants to give anything to Nevada let it remove Chicago to Reno.

Jeff Davis has written an article for the North American Review entitled "Who Was to Blame for Andersonville?" There is a popular belief in the North that Mr. Davis is entitled to at least a share of the responsibility.

EVICTED IRISH TENANTS.

James Cain and Wife Find Refuge in Utah from Oppressive Landlords.

An example of the suffering of tenants in Ireland is told in the following piece from the Salt Lake Tribune. The persons alluded to are now in Reno in search of employment and help from their countrymen:

James Cain and wife, evicted tenants of County Galway, Ireland, were in town Sunday, on their way to Ogden, where Mrs. Cain has a sister. Their misfortunes have awakened much sympathy, but there are many of their countrymen who have fared even worse than they. Cain is a man of education, having once been a schoolmaster; but turned farmer, and was greatly improving his little farm on which the rent had been £1 17s 6d per acre. But the agent of Absentee Landlord Charles Biske, whose brother is a M. P., noticed this, and raised the rent to £2 10s, which the tenant could not pay. So he must be evicted. But the Cain family were game; they barricaded the house and when the constabulary and police appeared Mrs. Cain set up the hot water to them in good shape. The cowards thereupon fired at but missed her, and then, breaking through the barricade one of them struck Cain in the left eye with a musket butt, destroying the eye and knocking its owner senseless. The family were then fired unmercifully out into the wet, muddy road, where they were all obliged to remain in the rain that night unbeltered. Cain himself was then put in the hospital, where his eye was removed, as it had been entirely destroyed. He was there six weeks, his family being housed by John Cain, his brother, and supported by the Land League, which paid the fares of James and his wife to Denver, Colorado, where she supposed her sister was living. They left Oct. 17th, with the children remaining at their uncle's until they can be sent for. However, at Denver the couple found the sister had moved to Ogden, but they had money enough to reach Grand Junction, where a collection taken up for them extended their ride to Green River. There, however, they had to take the road, sleeping out in the desert and occasionally catching rides on hand cars. Reaching this city Saturday, the couple were kindly cared for by the Sisters, who rehabilitated Mrs. Cain and gave them their meals until the local Land League could send them on to Ogden yesterday morning. They say the young people are leaving Ireland as fast as they can raise means, and that it won't be long before the landlords will have the cold sod to themselves.

A Disgraceful Chapter.

New York Sun (Dem.): Was there ever a more humiliating chapter of American diplomacy—a more confident and cocky beginning and a more ignominious end—than the story of Mr. Cleveland's Samoan negotiation?

It is a favorite saying of Gen. Harrison's that a Cabinet either wins public confidence at the outset and makes the Administration's pathway smooth and easy, or it does the other way. It is the other thing that the President-elect is now trying to avert, and to him it doubtless seems hard lines that in this big country there is no man he wants for Secretary of the Treasury willing to have it. He cannot afford another decision, for that would be almost in the nature of a rebuff and a cheapening of the office.

The President has removed A. P. Edgerton as Civil Service Commissioner and appointed Hugh Thompson, of South Carolina, to fill the vacancy.

THE INSANE ASYLUM.

Report of the Commissioners.

The following report has just been received:

STATE OF NEVADA,
CARSON CITY, January 22, 1889.
To the Honorable the Legislature of the State of Nevada:

GENTLEMEN:—In compliance with law the Commissioners for the Care of the Indigent Insane of the State have the honor to submit the following report, covering the years 1887 and 1888:

The report made to the Legislature in 1887 said, "the supply of water is inadequate for all purposes, and the cost of fuel and help required to run the pumping engines, and the breakage and necessary repairs thereto, constitute very heavy items of expense, and at the same time fails to provide the necessary supply of water for house purposes and protection against fire. We would recommend that you take such action in the matter as in your wisdom is deemed proper. During the session of 1887 the Assembly Committee of State Institutions visited the Asylum and saw the need of a more secure source of water supply and reported as follows: "One great need of this institution is an independent water source from which a supply of good, pure water can be obtained. This will be fully presented by a joint report from the Senate Committee on Public Institutions and your committee. The present source of water is a well, which with the power, pumps and tanks are so situated as to be of little avail in case of fire. The location and construction of these are such that they would be the first to be the prey to the flames, and should they not be, the capacity is too limited for practical use in case of a conflagration." By a resolution of the Assembly the sum of our hundred dollars was appropriated for the purpose of making a preliminary survey, a bringing in water to the State Insane Asylum grounds. A survey was made by Hon. C. S. Preble, but no report of the same can be found in the Journals of either House. As soon as practicable the present Board made arrangements to locate and appropriate a water right for the State. After a survey had been made, and work commenced, some difficulty arose in regard to crossing the land of the Reno Smelting and Milling Company. After some delay a proposition was made by that company to take water from their penstock, and in consideration for this privilege, the State was to pay a certain amount of money, fourteen hundred dollars, towards the expense of building a new dam across the river opposite the Reduction Works; when so built the State to take water from this new dam. With this understanding, the grade for the flume was so changed and connection made with the penstock of the Reduction Works, and for a few months water supplied from that source. A Leffel wheel was purchased and set up near the river; a large well dug and a force pump and pipe, necessary to convey water to the tank for the Asylum; hydrants and hose secured for use in case of fire, and also for irrigating the grounds. The water was abundant in the well and of good quality, and it was believed the water problem was successfully solved. Contracts were drawn to be signed by the parties interested, when misunderstanding arose, and it was thought best to locate another water right higher up the river, as the change in the grade made it necessary to go as high as the Reduction Works' dam in order to get fall to run with the flume. In order to avoid any further trouble with the Reduction Works Company a new water right was located on the south side to take water from both branches of the Truckee river, near the lower end of Scott's Island, and \$300 was paid to O. Madden for the right of way for the flume on the south side of the Truckee river, thence crossing the river by a bridge and connecting with the flume already built on the State's land. Unfortunately this bridge was built with a single span, and during a high wind was blown down and the timbers badly broken. A new bridge was built by placing an abutment or pier midway in the river, and a more substantial bridge built to support the flume, which will no doubt remain for years. While work was progressing, in the effort to supply water to the Asylum, the contractor, M. J. Curtis, and Superintendent of the Asylum, Dr. S. Bishop, were enjoined from diverting water from the north side of the river. Fortunately the State located the water from both branches of the river, so that when there was sufficient water in the south branch to fill the flume, it gave power to pump for all purposes at the Asylum. In making these locations for permanent water rights for the benefit of the State, the Board had no desire to in any way interfere with the prior rights of any locator, and only claimed the surplus water discharged over the dam of the Reduction Works Company. This suit was tried before His Honor, Judge Bigelow, and decided against the State. An appeal is now pending in the Supreme Court of the State.

The advantage to be derived by the

water power thus secured to the State will, if decided in the State's favor, be a great saving over steam power, besides, being situated at some distance from the main buildings, will be of great service in case of fire. There will be power sufficient to light the Asylum by electric light, for at least nine months in the year, and your attention is called to this fact. The present mode of manufacturing gas—from gasoline—is both expensive and dangerous to life. By placing a small donkey engine in the pump building by the river, to be used when the water is low, or in winter, when ice would interfere in running the wheel, both water and light can be furnished the institution at a small cost. The cost so far for these valuable improvements has been \$12,748 38, and to keep them in repair for many years the expense will be very light.

We respectfully recommend that the sum of \$85,000 be appropriated to carry on the Asylum for the two years commencing January 1, 1889.

We respectfully ask that careful consideration be given to Dr. Bishop's recommendation, and that the members of the Legislature personally visit the Asylum, and from personal observation look to the interest of these unfortunate wards of the State, and also give credit to those in charge, for their faithful performance of a delicate and very difficult duty imposed on them. We take pleasure in saying that Dr. Bishop, Superintendent of the Asylum, has faithfully performed the duties assigned him. Respectfully submitted,

C. C. STEVENSON,
GEORGE TUFFE,
J. F. HULLOCK,

Board of Commissioners for the Insane.

Katie Putnam and Billy Emerson. "The Putnam Emerson combination," namely, Katie Putnam, the most popular soprano actress on the American stage, and Billy Emerson, the famous minstrel, comedian and singer, is the very latest novelty in the theatrical world. Katie Putnam played the most successful engagement of the present season at the Alcazar Theater, San Francisco, closing last Sunday night to "standing room only," and crowds of people turned away. Billy Emerson closed his long season of the Emerson Minstrels at the Bijou Theater the same night, and was on the point of starting East, where he is under contract to appear at Dockstaders Broadway Theater next June, when Mr. Matt L. Berry, manager of the Katie Putnam Co., appeared on the scene and offered Mr. Emerson a salary which took the minstrel man's breath away, and in less than half an hour the contract was made for the famous Billy Emerson to appear in white face at every performance of the Katie Putnam Co. between San Francisco and New York. W. C. Crosbie, Miss Nellie Strickland, George Neville, and the staunch character actor, H. B. Emery, are the leading members of Miss Putnam's excellent company, who will appear at the Opera House next Saturday night in the comedy-drama by C. T. Dazy entitled, "Erma, The Elf," which has met with the most pronounced success throughout the entire country. J. F. Berry, business manager of the company, is in the city with his paint brush.

What Am I to Do

The symptoms of biliousness are unpleasant but too well-known. They differ in different individuals to some extent. A bilious man is seldom a breakfast eater. Too frequently, also, he has an excellent appetite for liquids but none for solids of a morning. His tongue will surely bear inspection at any time; if it is not white and furred it is rough at all events.

The digestive system is wholly out of order and diarrhea or constipation may be a symptom or the two may alternate. There are often Hemorrhoids or even loss of blood. There may be giddiness and often headache and acidity or flatulence and tenderness in the pit of the stomach. To correct all this if not effect a cure try Green's August Flower; it costs but a trifle and thousands attest its efficiency.

I. O. O. F. Funeral Notice.

The officers and members of Truckee Lodge No. 14, I. O. O. F., are requested to assemble at their Hall on Sunday afternoon, February 10th, 1889, at 1 o'clock, for the purpose of attending the funeral of Brother S. C. Fugus. Members of Reno Lodge No. 19 and all sojourning brothers are respectfully invited to attend. By order,

W. J. THOMAS,
Noble Grand.

Attest:
JOHN BOWMAN,
Secretary.

Coal, Coal, Coal.

Pleasant Valley coal is the best and cheapest fuel in the market. 3 tons of P. V. coal equals five tons Rocky Mountain coal, by actual test. No slate or clinkers. One ton P. V. coal equals 3 cords common pine wood. Give it a trial and be convinced. Leave orders with or enquire of H. Sample, Depot Hotel or coal house, or at Nashys, or of Phil Aliger, the drayman.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhea, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle.

THOUGH BELFORD'S MAGAZINE IS THE latest comer in the field of periodical literature, the best proof of its prosperity is the fact that its paid up subscription list has reached a figure eminently satisfactory to the publishers.

Belford's Magazine is distinctly American and commends itself to all intelligent and thoughtful persons who wish to keep themselves posted on the great questions of the day. Under the able and brilliant management of Col. Donn Piatt it will each month in its editorial department speak out fearlessly but fairly, and with thorough independence, on all questions of public importance.

Its 112 novel, given in each number complete, by some of our popular authors, such as Julian Hawthorne, Edgar Saltus, Edgar Lawrent, Mrs. Elizabeth Bellamy and a score of other well-known names, is a characteristic of Belford's Magazine.

Prof. Sumner, David A. Wells, Henry George, Henry Watterson, John G. Carlisle, Frank Hurd, are some of the contributors to Belford's Magazine on political and economic subjects. Short stories, two or more of which are contributed to each number, dramatic notes, passing events and book reviews, combine to make Belford's one of the most readable and interesting periodicals now before the public.

THE OLD RELIABLE FURNITURE HOUSE OF

John Breuner is well worthy of note, and we take pleasure in devoting to it due space and attention. Mr. Breuner has been engaged in the business for thirty-three years and conducts one of the largest business houses in California. He manufactures and deals in all kinds of furniture and bedding, and has established a most enviable celebrity for the excellence of the goods turned out by his house. He carries a very large stock, embracing all grades and kinds of furniture and quotes prices that defy competition. His goods are all first-class, made of the best material and first-class workmanship, and the people cannot find a more advantageous house to deal with. He carries a supply of photographs of all goods, which will be sent free of charges to any address, and by this method people at a distance can select goods at home as well as in person at his house, and may rest assured of being satisfactorily and fairly treated by him. This is a most convenient and pleasant method for those abroad, and we recommend a trial of it.

250 Beautiful Lots For Sale!

A RARE CHANCE FOR INVESTMENT AND A HOME

THE MOST LOVELY PORTION OF RENO.

Facing the Truckee—The Aristocratic Riverside Avenue Driveway—Splendid Sewerage—Healthy Location and Safe From Fire.

The proprietor is now ready to receive proposals for lots in Powning's Addition. The map gives a good idea of the Tract, which is situated between the Central Pacific Railroad and the Truckee River, and commences on the west at a point three blocks distant from Virginia Street, making it the most central and convenient of any portion of the rapidly growing town of Reno. Unlike any other part of the town this Addition faces the beautiful Truckee River and Riverside Avenue is certain to become the fashionable driveway of the country. The streets are 80 feet wide, while Riverside and Keystone Avenues are intended to be 100 feet in width. All alleys are 20 feet wide. The soil is a rich gravelly loam, and susceptible of the highest state of cultivation. Being situated as it is it is more safe from fire than any other section. The regular lots are 50x140 feet. The sewerage is perfect.

Before Buying Elsewhere Parties will do Well to Look at These Lots.

RENO

Reno's geographical position is excellent. It is on the line of the Central Pacific Railroad, only 154 miles from Sacramento, and 244 miles from San Francisco. It is the terminus of the Virginia and Truckee Railroad running south, and of the Nevada and California Railroad running north. It has two Flouring Mills, Planing Mills, three Nurseries, a Soap Factory, Reduction Works, and other industries. A great Woolen Mill and a Sash, Door, Blind and Box Factory, are about to be established.

Reno has the Bank of Nevada with \$300,000 capital, and the First National Bank with \$200,000 capital. It has two fine papers in the DAILY and WEEKLY NEVADA STATE JOURNAL and the Daily and Weekly Gazette.

Reno is the natural home of the Alfalfa, and therefore the great cattle headquarters of the State. Here are fed the prime beef for the California market. Reno potatoes are the best in the world, and she also excels in Strawberries and the small fruits. Reno Wheat took the first prize at the great New Orleans Exposition.

The State Fair is always held at Reno.

Reno is the County Seat of Washoe County, the wealthiest county in Nevada.

RENO

Has no equal in Nevada or California for salubrity of climate, wealth of soil, diversity of products and stability. Situated in the very heart of the celebrated Truckee Meadows the future of Reno is assured. Reno is the City of Homes. There is not a house to rent in Reno. New buildings are occupied as fast as erected. Reno has advantages which no other town can equal. The climate is mild and genial in Winter, and even and healthful in Summer. There are no excessively heated or severely cold terms, and while the days may be warm in Summer the nights are deliciously cool; in Winter sleigh-riding is the exception and not the rule.

Facilities for irrigating surpass any in the State, and there is no failure of crops.

Reno has Churches of all denominations, Bishop Whitaker's School for Girls, Mt. St. Mary's Academy, the State University, and splendid Public Schools.

The Reno Water Co. furnishes ample pure, cold water for all purposes. The Reno Electric Light Co.'s electric light system, already well established, is being augmented. The Reno Gas Co. supplies gas for all purposes. The streets of Reno are lighted by electricity.
